INDEPENDENT AUDIT REPORT'S & FINANCIAL STATEMENTS OF THE PROJECT

INDEPENDENT AUDITOR'S REPORT

TO MINISTRY OF INDUSTRY AND TECHNOLOGY

Opinion

We have audited the Statement of Sources and Uses of Funds, Statement of the Comparison of Budget and Actual Amount, Statement of Withdrawal Application Summary, and Statement of Designated Account of the Social Entrepreneurship, Empowerment and Cohesion in Refugee and Host Communities in Türkiye Project as of December 31, 2024, and for the period then ended, and notes to the financial statements including a summary of significant accounting policies. The financial statements have been prepared by Ministry of Industry and Technology in accordance with cash basis International Public Sector Accounting Standards and financial reporting provisions outlined in Grant Agreement Numbered TF-B4920.

In our opinion;

The accompanying financial statements present fairly, in all material respects, the financial position and cash flows of the Social Entrepreneurship, Empowerment and Cohesion in Refugee and Host Communities in Türkiye Project as of December 31, 2023 and for the period then ended in accordance with cash basis International Public Sector Accounting Standards and financial reporting provisions outlined in Grant Agreement Numbered TF-B4920.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *"Auditor's Responsibilities for the Audit of the Financial Statements"* section of this report. We are independent of the Ministry of Industry and Technology within the meaning of *"IFAC Code of Ethics for Professional Accountants"* and have fulfilled our other responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter in the Financial Statement

Without modifying our opinion, we draw attention to Note 2 to the financial statements, which describe the basis of accounting. The financial statements are prepared to assist MoIT to comply with the financial reporting provisions of the contract referred to above. As a result, the financial statements may not be suitable for another purpose.

Going Concern

The Projects financial statements have not been prepared using the going concern basis of accounting. The project will end on 30.11.2025.

Responsibilities of Management and Those Charged with Governance or Other Appropriate Terms for the Financial Statements

MoIT is responsible for the preparation and fair presentation of these financial statements in accordance with Grant Agreement Numbered TF-B4920, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the MoIT's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the planning and performance of the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

The conclusions drawn from audits conducted within the scope of other reporting requirements are as follows;

a) MoIT, as of December 31, 2024 has complied with, in all material respects, the requirements of the Grant Agreement Numbered TF-B4920.

b) With respect to SOEs, adequate supporting documentation has been maintained to support claims to the IBRD for reimbursement of expenditures incurred, and these expenditures are eligible for financing under the Grant Agreement Numbered TF-B4920.

1- PROJECT OBJECTIVES AND STRUCTURE

SEECO Project was approved in February 2021 and became effective in April 2021. The project aims to: (i) expand economic opportunities for mostly women refugee and host communities through support for social enterprises and vital livelihoods facilities; and (ii) improve social cohesion among refugees and host communities through enterprise development and participatory engagement in livelihoods facilities. The project consists of three components: (i) Component One: Social Entrepreneurship for Women and Youth in Refugee and Host Communities; (ii) Component Two: Community Livelihoods-related Facilities in Refugee and Host Communities; and (iii) Component Three: Institutional Capacity Strengthening and Project Management. There are six implementing agencies for the project – one at the national level and five at the subnational level. The Ministry of Industry and Technology (MoIT) is the recipient of grant financing and the implementing agency at the national level, together with the five participating Development Agencies (DAs) implementing the project in 11 target provinces, including Gaziantep, Adıyaman, and Kilis; Hatay, Osmaniye, and Kahramanmaraş; Şanlıurfa and Diyarbakır; Adana and Mersin; and Mardin, as follows:

- Silkroad Development Agency (implementing in Gaziantep, Adıyaman, and Kilis Provinces)
- Eastern Mediterranean Development Agency (implementing in Hatay, Osmaniye, and Kahramanmaraş Provinces)
- Karacadağ Development Agency (implementing in Şanlıurfa and Diyarbakır Provinces)
- Çukurova Development Agency (implementing in Adana and Mersin Provinces)
- Tigris Development Agency (implementing in Mardin Province)

The project is financed by a EUR 39.5 million grant provided by the European Commission (EC) through the Facility for Refugees in Türkiye (FRIT). The project closing date is November 30, 2025.

Project provinces are shown on the map below.

The project will be implemented through three components:

Component 1. Social Entrepreneurship for Women and Youth in Refugee and Host Communities (19,8 MEuro), Activities in this component will be implemented by the Community Implementing Partners (CIPs) under the oversight of the Development Agencies (DAs). Incubation and acceleration program will start with the selection of beneficiaries (new and/or existing social entrepreneurs). Selected beneficiaries will receive training and coaching/mentoring support, and then be supported in submitting applications (in the form of business plans) for incubation grants. In the acceleration program, selected beneficiaries will receive coaching/mentoring for capacity development. Recipients of those subgrants will then be provided with continued mentoring.

Component 2. Community Livelihoods-related Facilities in Refugee and Host Communities will finance (15,7 MEuro), (i) the capacity building and facilitation activities for refugees and host communities to engage in participatory decision-making processes over local needs and priorities for livelihoods-related facilities under Subcomponent 2A; and (ii) the cost of establishing/renovating selected livelihoods-related facilities under Subcomponent 2B.

Component 3. Institutional Capacity Strengthening and Project Management (4 MEuro), will finance project management, Monitoring and Evaluation, and communications (and visibility) as well as the targeted capacity building of national (Ministry of Industry and Technology [MoIT], DAs) and local actors (local public entities, NGOs, other stakeholders) to strengthen their capabilities to support women's livelihoods development in this project and in the future.

The relational diagram of the components envisaged to be implemented within the overall design of the project is given below.

A Project Implementation Unit (PIU) was established within the Ministry of Industry and Technology to coordinate all project activities and take responsibility for financial management, procurement, monitoring and evaluation, environmental, social, communication and visibility. In these units, individual consultants were contracted to coordinate financial management, procurement, monitoring and evaluation, as well as to monitor the timeliness of overall project implementation. This technical support to the PIU ensures compliance with the World Bank's requirements on procurement, reporting, auditing and monitoring.

In addition to the PIU team, for each Development Agency, monitoring and evaluation experts, financial management experts, communication and visibility experts and procurement experts have been included in the project implementation team to support the activities under Component 1 and Component 2 of the project to be implemented by the Development Agencies.

9- REFUNDS TO THE ACCOUNTS

There are no refunds to the account as of the review period.

10 - AMOUNTS WITHDRAWN NOT CLAIMED YET

As of the end of the review period (31.12.2024), there is a total of **EUR 4.561.721,49 €** withdrawn but not yet claimed. Amount was submitted in the next replenishment application.

11- EXPLANATIONS REQUIRED (Regarding Expenditures)

Although the expenditure amount indicated in Annex-5 Form E for the year 2024 is €21,298,598.47, the amount stated in Annex-9a FKKT Form is €20,086,465.19. The reason for this discrepancy stems from the capital transfers made to the Development Agencies based on the approval dated 12.11.2022 and numbered E-67141271-730.06.01-4179442. Payments were made to Category 1B beneficiaries from the accounts of these Agencies. Since the expenditures are recorded as they are disbursed from the Agencies' accounts, a difference arises in the reported expenditure amounts.

In Annex-5 Form E, the expenditures are based on the disbursements from the Euro account of the General Directorate of Development Agencies at Vakıfbank. In contrast, in Annex-9a FKKT Form, the expenditures are recorded based on the disbursements made by other Agencies and are reflected in the accounting records accordingly. Therefore, the expenditure amount stated in Annex-5 Form E aligns with the accounting records, while the amount reported in Annex-9a FKKT Form is consistent with the Special Account Statement.

A detailed breakdown of the payments made to the Agencies and the expenditures incurred is presented in the table below.
